## Experience

### Graphic Design and Production

I have designed and produced newspapers, magazines, books, catalogs, brochures, newsletters, ads, and direct mail. I have worked as a designer and typographer for a color prepress service. I have comprehensive knowledge of QuarkXPress and Photoshop. I have specialized experience in circulation promotions for magazines. Client publications have included *Billboard*, *The Christian Science Monitor*, *Windows*, *blue*, *ONE*, *DoubleTake*, *Mercator's World*, *Brooklyn Bridge*, *San Diego*, *Dance*, *Harper's Weekly*, *San Francisco*, *Atlanta*, and *American Artist*.

### Web Development and Programming

I benefit from a combination of design background and programming ability. I have programmed and designed a searchable database-driven product catalog — [mountainfarms.com](#). I have programmed a real estate website and content management system — [williamsauction.com](#). I have designed and produced a website for publishing industry consultants — [gbmedia.com](#). I have designed and coded an online literary journal using standards-compliant HTML and CSS — [ashevillereview.com](#). Comprehensive examples are online at [lowellallen.com](#).

## Education

North Carolina State University College of Design  
B.A., Environmental Design in Visual Design  
James Johnston scholarship  
Graduated with high honors

## Synopsis

I have extensive experience in publishing and Web development. I am familiar with a wide range of graphics software, with strong QuarkXPress and Photoshop skills. I code HTML and CSS, program PHP, and do MySQL database development. I am self-motivated and work well independently or as a member of a production team.

## Portfolio

Available for interview and online at [lowellallen.com](#)

## Personal

Married  
Two children  
Enjoy biking and arcane sports of repetitive accuracy
